YOUR GIPOFLEX ADVANTAGES

GIPOFLEX

CUSTOMISE OUR WORLD-CLASS
MACHINES TO **YOUR NEEDS**

- Optimal Adaptation**
Perfectly tailored plants for your requirements – for maximum performance at minimal costs.
- Economy & Flexibility**
Maximum efficiency without excessive investments. Adaptation to individual operating conditions.

- Precision & Reliability**
Minimized downtime and durable, stable performance – for smooth operations.
- Sustainable Development**
Expandable systems enable long-term optimization and reduced upgrade costs.

business

GIPOFLEX

FLEXIBILITY IN FOCUS

Do you want a plant with the highest Swiss GIPO quality, tailored to your individual needs? GIPOFLEX makes it possible.

1

YOUR REQUIREMENTS

Let us know your needs – we will develop the ideal solution for you.

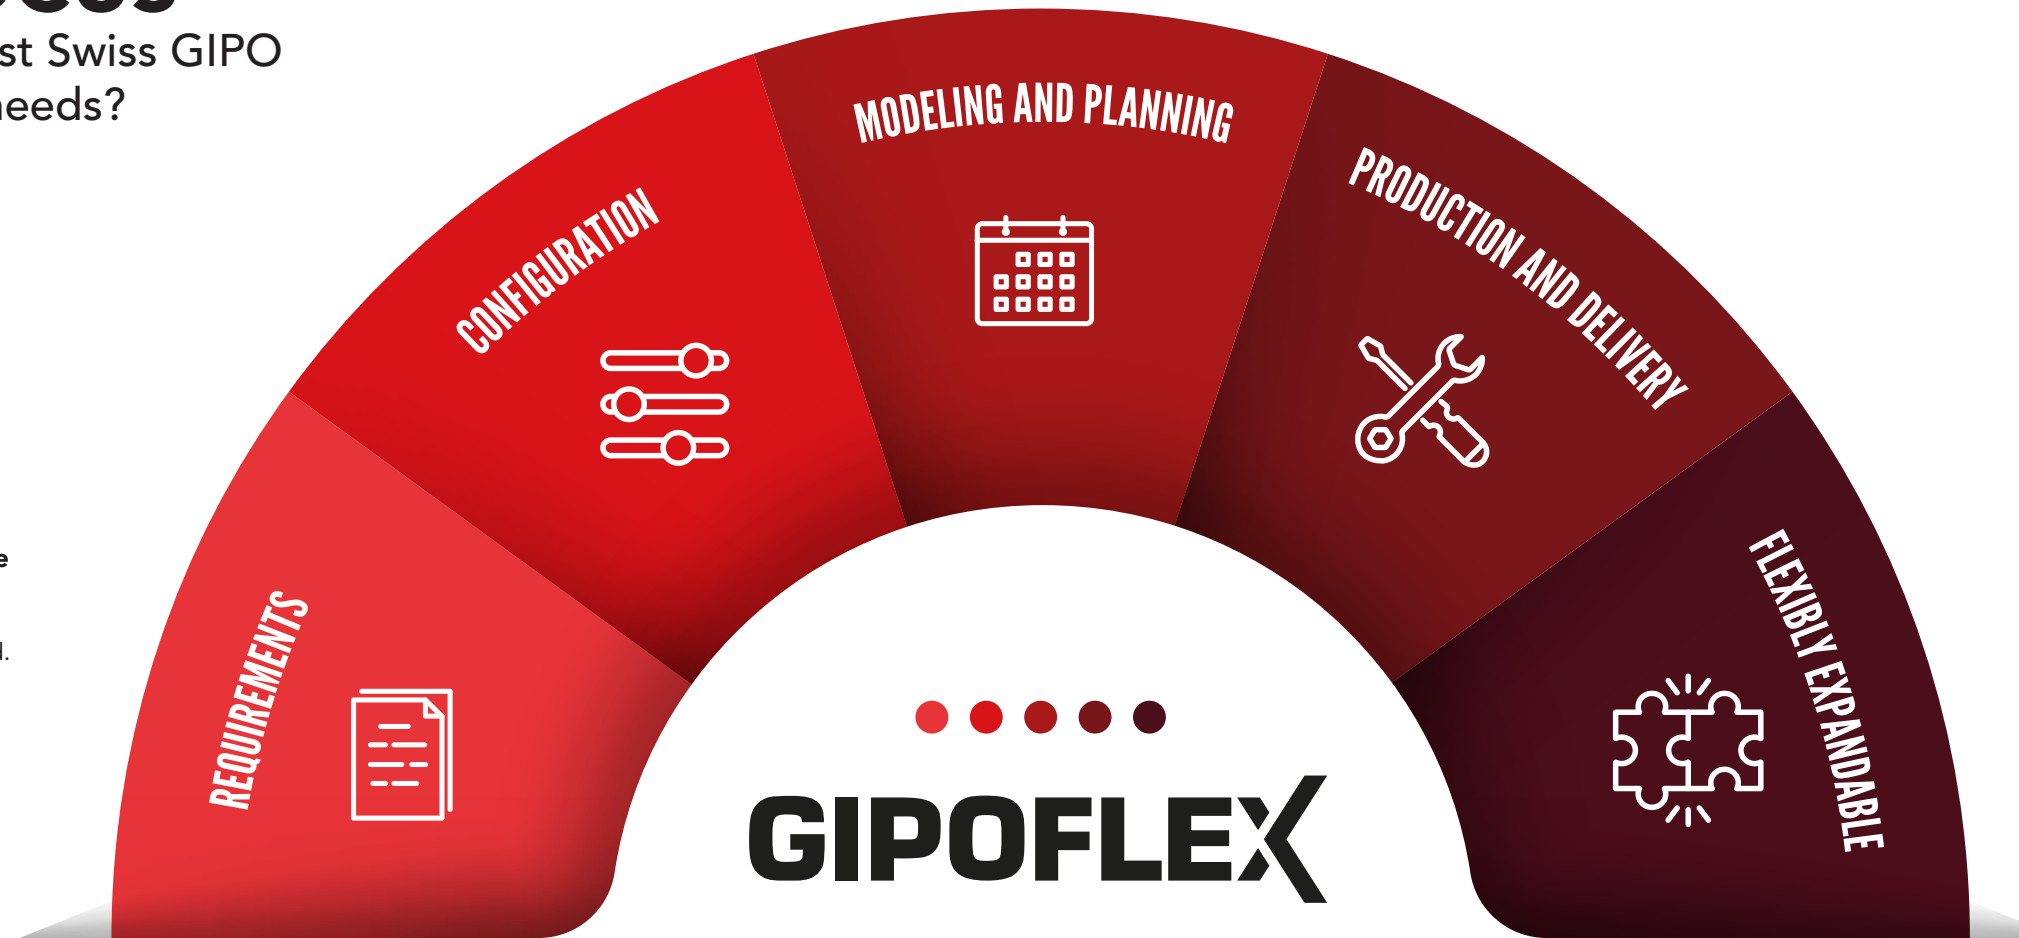

- Determine the type of materials to be processed.
- Calculate the required production capacity.
- Select the key features for your production.

2

CUSTOM CONFIGURATION

Choose a base model and customize it to your needs.

- Selection of the base model: jaw crusher, impact crusher, screening plant, and more.
- Adaptation of the plant to your production requirements.
- Optimization of the configuration for specific operating conditions.

CUSTOMISE OUR WORLD-CLASS MACHINES TO YOUR NEEDS

3

MODELING AND PLANNING

We offer precision and reliability, relying on proven engineering excellence.

- Creation of a 3D model and simulation: Visualization and optimization of material flow.
- Development of technical drawings: Precise specifications for all components.
- Custom engineering solutions: Tailoring the design to your requirements.

4

TAILOR-MADE PRODUCTION

We manufacture to the highest quality standards, deliver quickly, and ensure a hassle-free commissioning process.

- Production according to international standards: Precision and reliability at every stage.
- Strict quality control: Inspection of all components.
- Factory testing before delivery: Guaranteed operational readiness from day one.

5

FLEXIBLE EXPANSION

Always possible: Expand existing modules according to changing requirements.

- Adaptation of the plant to business growth: Scalable solutions.
- Future-proof flexibility: Integration of new features without high investments.
- Custom modifications: Option to upgrade for new tasks at any time.
