

# 50

SINCE  
1973

# OPEN DAYS

In 1973 the founder of our company, Emil Gisler, ventured into self-employment and started to establish his own mechanical workshop in Seedorf. Over 50 years the small, but versatile workshop run by Emil Gisler has developed with innovative power into two internationally renowned businesses – Emil Gisler AG and GIPO AG.

Celebrate with us the open days for the 50th anniversary. We warmly invite you to raise your glasses with us to five decades of innovation and success.
